AGENDA TITLE: Set Public Hearing for February 18, 2004, to Consider Reimbursement Agreement RA-03-04 Establishing an Area of Benefit and Reimbursable Costs for Developer-Funded Public Improvements for the Harney Lane Sanitary Sewer Lift Station and Sanitary Sewer Trunk Line

MEETING DATE: January 21, 2004

PREPARED BY: Public Works Director

RECOMMENDED ACTION: That the City Council set a Public Hearing for February 18, 2004, to consider Reimbursement Agreement RA-03-04 for Harney Lane Sanitary Sewer Lift Station establishing an area of benefit and reimbursable costs for developer-funded public improvements for the Harney Lane Sanitary Sewer Lift Station and Sanitary Sewer Trunk Line.

BACKGROUND INFORMATION: As a condition of development, the developer of the Century Meadows One, Unit 2 subdivision, K & W Development, LLC, was required to install the Harney Lane Sewer Lift Station to provide sewer service for the subdivision project. To fulfill this requirement, the developer entered into an improvement agreement entitled "Improvement Agreement for the Public Improvements for the Harney Lane Sanitary Sewer Lift Station", approved by City Council on December 4, 2002, to construct the Harney Lane Sanitary Sewer Lift Station at the southeast corner of Harney Lane and Mills Avenue and a sanitary sewer trunk line in Harney Lane between Mills Avenue and the Woodbridge Irrigation District canal. The lift station force mains and other related improvements in Mills Avenue and at the Mills Avenue/Harney Lane intersection were installed with the Century Meadows Three, Unit 5 development. The developer of that subdivision, Harney Development LLC, was reimbursed by the City for the cost of those improvements. The City was subsequently reimbursed for those costs by K & W Development, LLC, at the time of approval of the above-mentioned lift station improvement agreement. The total improvements installed in conjunction with the lift station project are shown on Exhibit 1.

The lift station, force mains and sewer trunk line will serve the developer's subdivision, as well as other properties in the Harney Lane Lift Station Service Area. In conformance with Chapter 16.40 of the Lodi Municipal Code (LMC), the developer has requested a reimbursement agreement and establishment of an area of benefit for those improvements that benefit other properties in the Harney Lane Lift Station Service Area. A copy of the reimbursement agreement is attached as Exhibit 2. The Harney Lane Lift Station Service Area and benefit areas are shown on Exhibit A of the agreement, and the final total costs for the improvements and fair share obligation for the benefiting properties are shown on Exhibit B.

The benefit area has been divided into two zones, A and B, as shown on Exhibit A. The reimbursable costs for Zone A include the lift station and associated force main improvements in Mills Avenue, as well as the sewer trunk line in Harney Lane. Reimbursable costs for Zone B include only the lift station and

APPROVED:

associated force main improvement costs. The fair-share obligation for each property within each zone is shown on Exhibit B. The lift station costs are prorated based on the proportion of the parcel acreage to the total acreage of the total benefit area, Zones A and B (225.58 acres). The sewer trunk line costs are prorated based on the proportion of the parcel acreage to the total acreage of Zone A (62.1 acres).

The reimbursable costs shown on Exhibit A include future lift station improvements (curb, gutter, sidewalk, masonry wall and landscaping). Since the properties adjacent to the lift station site are outside the City limits and currently have no street frontage improvements, the street frontage improvements for the lift station site have been deferred until the adjacent properties develop. The developer has deposited the cost of those improvements, including engineering and administration fees, engineering plan check fees and engineering inspection fees, with the City and those costs have been included in the reimbursable costs. The costs shown on Exhibit B also include over-sizing costs to provide service to the portion of the lift station service area south of Harney Lane. The over-sizing costs have been paid directly to the developer by those property owners (Fink Group) in conformance with the agreement between the City and the Fink Group dated November 19, 1992. Those costs have, therefore, been deducted from the total construction costs and are not included in the reimbursable costs. The total reimbursable costs for the Harney Lane Sanitary Sewer Lift Station and Sanitary Sewer Trunk Line as shown on Exhibit B are \$766,133.75 and \$121,676.13, respectively.

The affected property owners within the Harney Lane Lift Station Service Area have been notified. The developer has paid the appropriate application fee and the fees to cover the cost of recording the reimbursement agreement. In conformance with LMC §16.40, staff recommends that Council set a public hearing to establish an area of benefit and reimbursable costs to recover the cost of the Harney Lane Sanitary Sewer Lift Station and Sanitary Sewer Trunk Line covered under Reimbursement Agreement RA-03-04.

Pursuant to LMC §16.40.50.A.3, the reimbursable amounts shall be recalculated annually to include an amount attributable to interest, using the Engineering News Record (ENR) 20 Cities Construction Cost index. Similar adjustments to the reimbursable costs will be made each January until payment is received. The initial ENR index to be used in the calculation is 6581. In the event that the benefiting properties develop, the City will collect the appropriate amounts from the developers of the benefiting properties and reimburse the developer in conformance with LMC §16.40.060 and §16.40.070.

FUNDING: Applicant fees and reimbursement fees collected from future developments.
